The contract for printing United States postage stamps next year includes 2,730,769,324 two-cent stamps, and 1,044,526,650 one-cent stamps. The total value of any one variety will be \$4,450, \$30 stamps. These are used for postage upon newspapers mailed in bulk. **—**

NOW that Hawaii has been annexed, the Queen Dowager Kapiolani is suing her two nephews for property in Honolulu, worth hundreds of thousands of dollars, which she had previously deeded to them, while another report is to the effect that the queen is going back to the islands to live. **—**

After all our laughing at Spanish war news the most truthful item from any origin since the conflict began is the Madrid dispatch published about the time of our first landing in Cuba which said: "Adm. Cervera, it is rumored in political circles, will immediately undertake a step the probable result of which will be favorable to peace." **—**

There is much satisfaction in the reports of the rapid healing of wounds in the ship hospitals of the Cuban fleet. Under the modern system of anti-septic dressing there is no formation of pus and no fever, so that the wounds heal very rapidly and a much earlier recovery is made than during the Civil war. Of course, there is a great reduction of suffering as well as an increased saving of life. **—**

LAST winter Commodore Schley remarked to a company of gentlemen in New York, that if the time should come when we should have any difficulty with foreign nations involving naval operations, we could probably be some surprise in store in connection with the performances of our gunners. He stated that the practice of gunners in the United States navy, firing at targets, etc., was, he believed, more thorough and better than in any other navy in existence, and that the marksmanship of the gunners in the American navy was superior to that of any other. **—**

ATTENTION is now being called to the need of a submarine-cable from San Francisco to Honolulu, and it is said that this will engage the attention of congress as soon as it meets this winter. Of course the cable company wants to have the cable from the government, and it will probably take the lines of the cable introduced at the last session by Senator Frye. It provided for a guarantee of a sum not exceeding \$100,000 a year, payable for 20 years to a company which shall lay a cable from San Francisco to Honolulu by way of the Midway islands to points on the coast of Japan. **—**

GERMANY's reigning houses are on the eve of an innovation which bids fair to revolutionize the entire system of succession. Several of the dynasties are in danger of becoming extinct in default of male issue of purely sovereign descent. With a view to avoiding complications some of these families have now come to the conclusion that in default of male issue of direct lineal descent the heir and successor may be chosen from the morganatic offspring who have hitherto been regarded as barred from the throne by the plodding ancestry either of their

Sectarianism Should Have No Place in Religion.

The Ammunition of All Christian Denominations Should Be Directed Against the Common Enemy and Not at One Another. Dr. Talmage's Sermon.

The text of Dr. Talmage Sunday was Judges xii, 6: "Then said they unto him, Say now shibboleth, or say sibboleth; for he could not frame to pronounce it right. Then they took him and slew him at the passages of Jordan." **—**

Do you notice the difference of pronunciation between shibboleth and sibboleth? A very small and unimportant difference, you say. And yet that difference was the difference between life and death for a great many people. The Lord's people, Gilead and Ephraim, got into a great fight, and Ephraim was worsted, and on the retreat came to the fords of the river Jordan to escape. One said to them all, "Egyptians coming, the heathen." But how could it be known who were Ephraimites? They were detected by their pronunciation: shibboleth was a word that stood for river. The Ephraimites had a brogue of their own, and when they tried to say "shibboleth" always left out the sound of the "h." When it was said that they say shibboleth, they said sibboleth, and were slain. "Then they took him and slew him at the passages of the Jordan." **—**

WEDNESDAY, JULY 20TH.

The army to operate against Porto Rico will number about 30,000. A part will be taken from Shafter's command and from Chickamauga Camp, and the others are embarking at or have already left Tampa and Charleston.

Germany is not giving Uncle Sam much concern in the Philippines, but the insurgents are, and may stir up a big row at any time.

The Cuban insurgents are still badly in the sulks because Santiago was not turned over to them because the Spanish municipal government was retained.

Santiago is wretchedly foul and ripe for an epidemic of disease. Provisions are pouring in to fill the long-felt want in the stomachs of the inhabitants.

THURSDAY, JULY 21ST.

The Porto Rico expedition is delayed by lack of warship convoys.

The Santiagoans generally are well pleased with American rule. The soldiers of both sides meet in the friendliest manner.

The Madrid Imparcial, a strong jingo journal, says the American treatment of Spanish prisoners is more humanitarian than Germany's of the French in 1871, and Russia's of the Turks.

The Spanish government denies that it ordered Gen. Tora to surrender Santiago.

The Spanish Transatlantic Co. was awarded the contract of carrying the prisoners from Santiago to Spain at \$20 per enlisted man and \$55 per officer. It will cost over half a million dollars. The soldiers are said to be under the belief that they are to be paid arrears and sent home by the United States, having been told so, and that this nation has bought Cuba. They don't think they were surrendered.

A wild rumor comes by way of Jamaica that Gen. Garcia was shot and killed.

Gen. Perrejo, in command at Guantanamo, refused to be included in Gen. Tora's surrender.

FRIDAY, JULY 22D.

President McKinley took a hand in and stopped the friction between the army and navy in regard to conveying Gen. Miles and troops to Santiago. Admiral Sampson was ordered to lose no time in furnishing a sufficient convoy.

The second body of troops from San Francisco has arrived at Manila Bay. The attempt to take the city may be made at any time.

Gen. Garcia has tendered his resignation because the Cubans were slighted at Santiago.

Gen. McKinley as Military Governor of Santiago was succeeded by Gen. Leonard Wood, formerly Col. of the Rough Riders.

Commodore Watson's Eastern Squadron will not start to the Spanish coast until the army is landed in Porto Rico.

SATURDAY, JULY 23D.

On July 18th Commander Todd with the gunboats Wilmington and Helena and auxiliary war vessels Scorpion, Hest, Hornet, Wampatuck and Ocoee entered the harbor of Manzanillo and destroyed or drove ashore five gunboats, sunk three transports and blew up a pontoon. Todd is a brother of ex-Mayor Todd, of Louisville. Lieut. Lucien Young, commander of the Hest, is another Kentuckian, that helped gain the victory.

U. S. warships destroyed the enemy's cruiser Jorge Juan, 5 guns and 2 machine guns, 166 men, and took the town of Nipe, northeastern Cuba.

Admiral Sampson sent Lieut. Richmond P. Hobson to Washington City to explain to the Navy Department that by prompt work the Maria Teresa and Cristobal Colon might be floated and saved, to be reconstructed into fine warships. The Quendio is a total wreck. The Vizcaya is not so bad. Lieut. Hobson made the examination as expert naval constructor. Great demonstrations greeted him as the hero of the Merrimac episode.

An apparently reliable report from Madrid to a London paper says Sagasta admitted that the preliminaries of a negotiation for peace had been entered into.

It is reported that Gen. Garcia left the vicinity of Santiago with his insurgent army and attacked a body of Spanish troops on their way to lay down their arms. It is said that his men got the worst of the fight.

Gen. Shafter has banished the "yellow journal" correspondents from his camp.

Gen. Fred Grant's brigade, containing the First and Third Kentucky, will leave Chickamauga for Porto Rico Wednesday if transports can be secured for their embarkation at the seaport where they will go.

SUNDAY, JULY 24TH.

Gen. Miles' expedition is expected to land today at Guanica, Porto Rico, and proceed to Yauco to encamp and recuperate. Then Ponce will be attacked, about August 1st.

The warships in the West Indies will be sent North as rapidly as possible to be docked, repaired and put in the best shape for future operations.

Shafter reports that the threat of Rough Riders if they'll be good he'll take them to the Paris Exposition in 1900. Ted oughtn't to make rash promises. He may be a Presidential nominee just at that time.

Sylvester Scovel, the New York World correspondent, was refused a conspicuous part in raising the flag at Santiago and he resented it by stepping up to Gen. Shafter and slapping him in the face. It is likely to be a case of bullets for a blow with the obstreperous journalist.

MONDAY, JULY 25TH.

Gen. Shafter expelled Sylvester Scovel from Cuba for striking at him. He will not punish him severely because that would give Scovel the notoriety he is seeking.

Insurgent General Lliveras with 2,000 will meet and co-operate with Gen. Miles in Porto Rico.

TUESDAY, JULY 26TH.

A dispatch by way of the Danish island of St. Thomas says Gen. Miles is landing at Ponce, Porto Rico. It is doubted at Washington, as it was understood that he was to land at Fajardo. He has 3,500 troops. Gen. Wilson from Charleson has 3,600 and Gen. Schwan from Tampa has 4,000. As many more are about to embark.

The Spanish troops in the surrendered district of Santiago are coming in and laying down their arms.

Peace talk is now coming from Madrid. A proposal for an armistice is reported.

Four Japanese warships have been ordered to reinforce the squadron in Chinese waters and to co-operate with the British and U. S. Admirals in the event of international complications. Four Russian warships have left Port Arthur presumably for the Philippines. They are beginning to look equally there.

A French gunboat is coming on the hunt of the French liner Olinda Rodriguez, seized and sent to Charleston, S. C. The New York agent of the line is highly indignant at the seizure, saying the vessel is not a blockade runner.

500 new cases of all sorts of fever are reported in Gen. Shafter's army, but they rapidly recover. 450 have returned to duty from the hospitals.

The Spanish prisoners at Portsmouth, New Hampshire, cheered the U. S. warship Frolic, which passed their quarters. It is supposed they wanted to show gratitude for kind treatment.

Sixty-four Prince of Wales broke his knee-cap the "deaf boys" walk with a limp.

SPAIN makes the ludicrous threat of sending a squadron of her sorry remnant of fleet to harass the American coasts.

CONGRESSMAN PUON's renomination was made by acclamation at Greenup July 19th. The opposition seems to acquiesce.

TAMPA, Florida, must be a town of many fascinations. A military expedition can hardly tear itself away from the place.

This Administration is said to not be taken with the idea of imperialism, at present desiring only a coaling station in the Philippines.

In Gen. Miles wants that commission of Lieutenant General he needs to bump himself and make a brilliant job of taking Porto Rico.

JO LEHRIN's experience with a wheat corner cost his father about \$6,500,000. Jo manipulated the wheat, but the old man paid out the dough.

THE SECOND Kentucky Regiment doesn't seem to be in it yet. Perhaps it will get a chance in the toughest job of all—taking Havana about Christmas.

The Confederate Veterans had the greatest reunion they ever held, at Atlanta, Ga., last week. Gen. John B. Gordon was re-elected Commander-in-chief without opposition.

GERMANY's attitude in the Philippines is that of a boy spectator at a marble game waiting for the cry of "Dead grabs!" to get a portion of the spoils where he had staked nothing.

THE Klondike is now pouring down its streams of golden wealth, but the returning miners say there is nothing left for late comers, all known valuable mining land being staked out.

THE second U. S. expedition on the way to Manila Bay stopped and raised the Stars and Stripes over Wake Island, one of the Marshall group, neighbors to the Ladrones and Carolines.

THE Empress of Russia forbids her court ladies from smoking cigarettes any more in the imperial presence. Her Majesty is playing with fire. Who knows but that such an attempt to restrict the enjoyment of the ladies of the "poises" will breed a Nihilist plot?

THE reports pretty much agree that the Cuban insurgents will neither fight nor work, but punish grub and pillage right up to the notch. Garcia's troops are half negroes and the other half Cubans and mixed breeds.

There is almost no hope of saving any of the ships of Cervera's squadron, says the report one day, and the next it says one, two or all the big ships can be made over into useful vessels.

UNCLE SAM now has military dominion over the Hibernian-named Spanish Wake Island, a coral elevation in the Western Pacific. Booting, pirating and dodging earthquakes and hurricanes are among the advantages of the island.

TEDE ROOSEVELT promises his regiment of Rough Riders if they'll be good he'll take them to the Paris Exposition in 1900. Ted oughtn't to make rash promises. He may be a Presidential nominee just at that time.

Sylvester Scovel, the New York World correspondent, was refused a conspicuous part in raising the flag at Santiago and he resented it by stepping up to Gen. Shafter and slapping him in the face. It is likely to be a case of bullets for a blow with the obstreperous journalist.

THE artillery used in the defense of Santiago was insignificant in comparison with the batteries of Sampson's squadron, the finest in the world for their size. Yet the forts held the ships at bay. The lesson gives reassurance to fortified seaports.

Sylvester Scovel, the New York World war correspondent, is rustling for the chief heroism of the war. He caused the Spanish authorities to offer a big reward for him, the U. S.
